

Bay Bulls Newsletter

December 2017 | Edition 2

A Message from the Mayor;

Friends and neighbors, with the holiday season fast approaching, it gives me great pleasure to offer best wishes and a sincere heart felt thank you on behalf of council, staff and myself. To the numerous volunteer groups and businesses operating within our municipality – Thank You. Collectively, it is you that make Bay Bulls such a wonderful place to live and raise a family.

Situated on the doorstep of the capital city as the gateway to the Irish Loop we are well positioned and have much to offer. With a commitment to strong fiscal management we will continue to strategically explore growth and development opportunities. It is this commitment that will ensure our continued access to opportunities and

amenities beyond those of most towns our size.

We have a dedicated and highly motivated council and staff eager to continue the work of protecting and improving our community. Today I wish to all a Merry Christmas and a happy, peaceful and prosperous New Year. It is my fondest wish that 2018 be a year filled with happiness, health and prosperity for all.

Happy Holidays;

Harold Mallowney-Mayor

Report a Street Light Out

If you see street lights in need of repairs, call (709) 737-5408 – NL Power to report.

Or Contact Sandra or Ashley at the Town Office (709) 334-3454

Fire Safety Tips

Stay Fire Safe this Holiday Season by taking these small steps. **1. Cooking:** If you're planning to deep-fry your holiday turkey, do it outside, on a flat, level surface at least 10 feet from the house.

2. Candles: To reduce the danger, maintain about a foot of space between the candle and anything that can burn. Set candles on sturdy bases or cover with hurricane globes.

3. Christmas Trees: To minimize risk, buy a fresh tree with intact needles, get a fresh cut on the trunk, and water it every day. A well-watered tree is almost impossible to ignite. Keep the tree away from heat sources, such as a fireplace or radiator, and out of traffic patterns. If you're using live garlands and other

greenery, keep them at least three feet away from heating sources. **4. Decorative Lights:** When hanging lights outside, avoid using nails or staples, which can damage the wiring and increase the risk of a fire. Instead, use clips or hangers. And take lights down within 90 days. If you leave them up all year round, squirrels chew on them and they get damaged by weather.

5. Fireplaces: Screen the fireplace to prevent embers from popping out onto the floor or carpet, and never use flammable liquids to start a fire in the fireplace. Only burn seasoned wood – no wrapping paper. When cleaning out the fireplace, put embers in a metal container and set them outside to cool for 24 hours before disposal.

Outside Maintenance Worker Full-Time Position
